

Heyco® Standard Appliance Terminal Blocks

Screw to Screw

- Allows standardization of the SOLID WIRE Cordset. Input and output wires are always secured with a screw.
- Modern low profile design occupies less "real estate" inside the appliance.
- No exposed metal parts. "Dead front" designed safety.
- Pressure clamp connectors are supplied in the open position, ready to accept single or multiple solid conductors.
- To meet European requirements, your application may need a terminal block between the power supply cord and internal electricals.
- Popular 2, 3, and 12 pole configurations are shown in the tabular chart.
- All sizes are rated at 300 volts (450 volts in Europe).
- Metal parts feature galvanized steel screws and galvanized brass inserts.
- Standard natural parts are molded of type 6 "Nylon". Flammability classification 94V-2; temperature index 115°C (except TB 3B-140°C).
- Available in 94V-O flame retardant (FR), glass-filled nylon 6/6 material. Temperature index 140°C (except TB 3B-170°C).
- Recognized under the Component Program of Underwriters' Laboratories File #E-197025.
- Certified by Canadian Standards Association File #LR-210961.
- Approved.
- **Part No. 9299** fixing pin available for mounting terminal blocks.
