

ABA MINI

- ① **Rolled-up band edges**
- ② **Band tongue** that fits under the hose is profiled for added strength.
- ③ **Hexagonal head** and can be tightened with a flexible socket.
- ④ **The nut is retained** even if the screw is removed.

A durable solution for quick and safe clamping

ABA Mini Standard clamp is particularly suitable for use on small, thin-walled hoses. This little clamp provides an excellent clamping force well over screwless clamps.

Advantages at a glance

- Excellent clamping force well over screwless clamps.
- The band is stamped with the ABA brand name and its size.

Typical applications

- For small thin-walled hoses
